Suture Pro

Price list and market comparison

Launching soon

October 2026 · Windows 11 · English

A Windows PC check-up that shows what it finds in plain words and **changes nothing until you confirm**. Most changes can be undone. **Paid once, not every year.**

Free

EUR 0

No time limit

- Smart Scan and its findings, in plain words
- Restore points, most undo buttons and the safety tools
- Temp-file cleaning, up to 250 MB a month
- Fixes shown as steps, to do by hand

Suture Pro, 1 PC

EUR 29

One payment, not a subscription

- Everything in Free
- Every fix button and "Apply low-risk fixes"
- Unlimited cleaning, caches and the uninstaller
- All 1.x updates included

BEST VALUE

Suture Pro, 3 PCs

EUR 39

EUR 13 per PC. One payment.

- Everything in Pro, on up to 3 PCs you own or control
- For a family, or a desktop and a laptop
- All 1.x updates included

Insights: 7 Pro-only checks (not in the trial).

Pro trial of 5 days of use, no card · 30-day refund, no reason needed · Key by email · Same key after a reinstall or a new PC · Tax shown at checkout

How Suture compares

prices checked 12 Oct 2026

Process Lasso Pro (lifetime)	USD 39.95	Once	1	Nothing more to pay
Microsoft PC Manager	Free	n/a	any	n/a

Competitor prices are list or first-year prices from the vendors' own pages or public price trackers on 12 Oct 2026. They vary by country, offer and tax, and may have changed since. Many subscriptions start with a discount and renew at a higher price.

What you pay over three years one PC, list prices above

EUR 29
Suture Pro: paid once, all 1.x updates

about EUR 135
A cleaner at about EUR 45 a year, renewed twice

about USD 100
A tool at about USD 34 a year, renewed twice

What Suture does differently

Reads first, asks before it acts
Smart Scan only reads. Nothing changes until you pick a fix, read what it will do, and confirm. No "fix everything" surprises.

Undo for most changes
Most fixes can be undone in one click, and Suture can make a restore point first.

Plain words, no scare tactics
Each finding is explained in everyday language. No red "thousands of problems" counters and no speed or security promises.

Everything it can change is public
A public page, "What Suture changes", lists every change the app can make, before you install it.

No account, no telemetry, no ads
The scan runs on your PC, and its logs and undo records stay there. The licence key is checked on your PC, with no licence server.

More than cleaning
Crash and failure analysis, Defender status, backup checks (Backup guardian), startup and services, app and Windows updates, and Windows Update repair, in one place.

A free edition that is really useful
The scan, its findings and all the safety tools stay free with no time limit. Each Pro fix also shows the steps to do it yourself in Windows.

Paid once, not every year
One payment covers all 1.x updates. Same key after a reinstall, a Windows reset or a new PC.
